

SURVEILLANCE

H.R. 1603 Referred to Judiciary Committee
[Drinan]

This bill, amending Title 18, altogether prohibits the interception of any wire or oral communication without the consent of all the parties to such communication. The bill repeals 18 U.S.C. 2511(3), which recognizes the constitutional power of the President to take measures he deems necessary to obtain foreign intelligence; and 18 U.S.C. 2516-2519, which provide for interception of communications pursuant to court order issued on "probable cause."
